LINGUA INGLESE

-I just returned from the greatest summer vacation! It was so fantastic, I never wanted it to end. I spent eight days in Paris, France. My best friends, Henry and Steve, went with me. We had a beautiful hotel room in the Latin Quarter, and it wasn't even expensive. We had a balcony with a wonderful view.

We visited many famous tourist places. My favorite was the Louvre, a well-known museum. I was always interested in art, so that was a special treat for me. The museum is so huge, you

could spend weeks there. Henry got tired walking around the museum and said "Enough! I need to take a break and rest."

-Lucas goes to school every day of the week. He has many subjects to go to each school day: English, art, science, mathematics, gym, and history. His mother packs a big backpack full of books and lunch for Lucas.

His first class is English, and he likes that teacher very much. His English teacher says that he is a good pupil, which Lucas knows means that she thinks he is a good student.

His next class is art. He draws on paper with crayons and pencils and sometimes uses a ruler. Lucas likes art. It is his favorite class.

-This class is very hard for Lucas to figure out, but he gets to work with his classmates a lot, which he likes to do. His friend, Kyle, works with Lucas in science class, and they have fun. Then Lucas gets his break for lunch. He sits with Kyle while he eats. The principal, or the headmaster as some call him, likes to walk around and talk to students during lunch to check that they are all behaving.

The next class is mathematics, which most of the students just call math. Kyle has trouble getting a good grade in mathematics, but the teacher is very nice and helpful.

His fourth class is gym. It is just exercising.

-There are seven days of the week, or uniquely named 24-hour periods designed to provide scheduling context and make time more easily measureable. Each of these days is identifiable by specific plans, moods, and tones.

Monday is viewed by many to be the "worst" day of the week, as it marks the return to work following the weekend, when most full-time employees are given two days off. Most students attend school in the morning and return home in the afternoon (usually from about eight until three or seven until two), and most workers go to work in the morning and return home in the evening (usually from nine to five or eight to four).
